1. Program Outline

This double degree program allows students from APU and SEU to obtain bachelor degrees from both universities within four years of study, including two years at their home university and two years at the host university.

Earning two degrees in four years is not easy, and when you take courses at SEU, you must always check which of your APS credits they qualify for and whether they meet the APS graduation requirements. Failure to do so will make it more difficult for you to obtain a double degree and will also delay your graduation from APU.

Students study under SEU's Department of Global Studies, School of Behavioral and Social Science (BSS) and after successful completion of the program, will acquire Bachelor degrees as follows.

Acquirable Degrees	APU	Bachelor of Social Science
	NBS	Bachelor of Arts

Transfer of credits to APU

Academic credit received during the course of the program at SEU will be transferred to APU in accordance with Article 18 of the [Ritsumeikan Asia Pacific University Regulations](#). Students can transfer a maximum of 60 credits back to APU. These 60 credits include credits earned prior to transfer to APU (i.e. through transfer admission), prior to regular admission to APU, and through credit transfer programs, including the Overseas Student Exchange Program, the Domestic Exchange Program with Ritsumeikan University and Akita International University, the Open University of Japan, etc.

Program Cancellation or Change of Program Contents, Cancellation of Participation" of Items Common to All Programs” of “7. Items Common for All Programs” apply.

7. Items Common to All Programs

1. Visa

It is the student's responsibility to verify the visa(s) that will be required from departure through return home and then to apply. The visa(s) required will differ depending on the student's nationality, the country/region of dispatch, and the length of stay. Students should check the website for each embassy to confirm the visa required (including transit visas) and the documents required. Further, because visa application requirements can change without notice, please be sure you have the most recent information in hand. For those getting a "Visa On Arrival" (also: "On-Arrival Visa"), according to the regulations of the country issuing the visa, generally speaking such visas are not recognized except in cases when a visa cannot be obtained prior to traveling.

In the unlikely event that you are unable to obtain your visa by the date set, your dispatch/study abroad program will be canceled. Also, the dispatch/start date of your study abroad program will not be changed.

In that event, the participant will bear the cost of any cancellation fees. Cancellation fees to be borne and grades will be handled in accordance with the "Disclaimers and Notices".

[International Students Only]

International students should review the renewal date for their Japanese residence permit and permission for reentry in addition to the visa requirements for the country where their program will be run. If there is anything you don't understand regarding the renewal date for your residence permit or permission for reentry, please check with the Student Office.

Note: Depending on the program, there are cases when your visa application will be handled by an agency.

Please confirm the details with the program coordinator.

2. Insurance

Including cases where students have already individually taken out an insurance policy, program participants must take out domestic and overseas travel insurance as designated by APU and the host institution, join the JCSOS Crisis Management System (J-TAS), and so on. Details on taking out these insurance policies will be provided in the pre-program classes and at the guidance session for participants

3. Vaccinations

The APU Health Clinic will provide information on the types of vaccinations it recommends at the pre-program classes and the guidance session for participants. Because the vaccinations recommended by the Health Clinic are not mandatory, each student should decide for themselves about whether to get the vaccination(s) or not. Students wishing to get the vaccination(s) should contact the health clinic and make an appointment for themselves.

Please note that some vaccinations may be mandatory depending on the dispatch destination, so please follow the instructions given during the guidance session.

4. Program Cancellation or Change of Program Contents, Cancellation of Participation

① The Dean of Academic Affairs will make the decision to cancel student dispatch if the following conditions are met:

- 1) In the event the Ministry of Foreign Affairs' "Travel Advise" is level 2 or above for the country or region of dispatch. However, if a "Warning on Infectious Diseases" is issued due to the spread of a new disease, etc., a decision will be made according to the situation.
- 2) In the event a program cannot be operated safely in view of social conditions.
 - 2-1) When making the decision to cancel a program, we take into consideration the projection that any of the

following will occur in the program destination: natural disasters; accidents; strikes; infectious disease; political unrest in the program country or region; disruptions to the normal operation of public transportation or medical services; war; terrorism; injury to, or sudden hospitalization of faculty coordinators; inadequate support for outgoing students from the host institution in the event of a crisis; or other unforeseen circumstances

3) In the event a host institution decides to cancel acceptance of students from APU which involves overseas travel

② In the event any of the following apply, a participant's participation in a program may be cancelled even after the announcement of acceptance. Further, with the exception of Overseas Student Exchange Program, Double Degree Program, and Short-Term Summer/Winter Program, in the event a participant's participation in a program is cancelled, as a rule a grade of "F" will be assigned.

A) In the event a participant's course participation is judged inappropriate, taking into consideration the participant's behavior and attendance

B) In the event the participant becomes subject to disciplinary action after the announcement of screening results

C) In the event the designated overseas travel and accident insurance is not taken out, and/or in the event that university instructions concerning the submission of documents, attendance at required guidance sessions, etc. are not followed

D) In the event that the university determines study abroad is not suitable due to injury, illness, etc.

E) In the event of misconduct

F) In the event of other violations of the participant's duty as a student

③ The student will be required to pay for costs already incurred at the point in time when their program participation is canceled.

5. Withdrawal After the Announcement of Screening Results

The university undertakes screening on the assumption that, at the time of application, everyone who applies to a program wishes to participate. Therefore, as a general rule, withdrawal after the announcement of screening results is not permitted.

When applying, students should carefully review the program contents in advance and make their preparations assuming they will not withdraw. Furthermore, if a student fails to pay the cost set by the university by the deadline, this will be treated as a withdrawal. Please see Item **"6. Cancellation Fees"** below regarding cancellation fees.

In the case of credit-granting programs, as a general rule students who withdraw will be assigned a grade of "F".

6. Cancellation Fees

In cases where a participant is forced to withdraw after announcement of the screening results, the withdrawing student must pay costs incurred up until that point in time. The cancellation fee also includes bank fees (overseas wire fees, etc.).

In the case that the costs required by the program have already been remitted to the university, the cancellation fees will be deducted and the difference will be refunded. The refund procedures require a certain amount of time.

7. Registration Plan

Students should thoroughly review their registration plan and number of credits to be earned through the program

and confirm that this plan will not cause any problems with their registration plan for graduation. No special consideration will be given in the event that problems are identified after the screening results have been announced and also that an item listed in "**4. Program Cancellation or Change of Program Contents, Cancellation of Participation**" has arisen. Students should assume personal responsibility when applying to any program.

Note: It is not possible to participate multiple times in a program having the same lecture content.

If it is not clear whether or not the program you wish to apply for has the same content as a program you have already completed, please inquire with the Academic Office before applying.

8. Handling of Personal Information

Please see the pledge for details.

9. On Participating in a Program

1_ Whether or not a program experience is rewarding depends greatly on the attitude and effort of the participants themselves. Participants need to have the flexibility to accept the different cultures found abroad and a positive attitude towards learning. Each participant should firmly set goals for participating in the program. Further, attendance at the guidance session and the pre-/post-classes held before and after dispatch is mandatory. Absences without notice are not permitted. Also, students should be sure to submit all documents and assignments by their deadlines.

2_ During program participation, participants should comply with the "Off-Campus Study Programs Requirements for Participation (Pledge)" and the "Risk Management Guidelines for Off-campus Study Programs Participants".
