Eligibility	Only Japanese-basis domestic students on the English Standard Track can register for this subject.
Registration Restrictions	Available after completing "Pre-Intermediate English A & B" and before completing "Upper-Intermediate English A & B". The classes are separated by college, so students cannot register for the "Bridge Program" of other colleges. Students who want to take this subject should register for it themselves during one of the course registration periods.

Graduation Requirement 6: Select and register for an Area of Study

- The College of Asia Pacific Studies has established four Areas of Study for students to develop specialized knowledge and comprehensive problem-solving abilities regarding the various issues facing the Asia Pacific region. These studies center around solid language proficiency and a basic understanding of the diverse cultures, histories, societies, natural environments, and historical conditions within the Asia Pacific region. The name of that Area of Study will be noted on their diploma.

Students can only register for one Area of Study.

Core Subjects ***Not a graduation requirement**

The social sciences are made up of two aspects: (1) society as the subject of research and (2) approaches for examining society and the theoretical framework of those approaches. Following this understanding, the subject of research in APS is the "Asia Pacific region", and the four Areas of Study make up the approaches and theoretical frameworks for observing the Asia Pacific region. As the study of these two aspects is the foundation of APS, the following two subjects have been positioned as core subjects, and students can learn about the principles and goals of APS through taking these subjects. Neither subject is required for graduation, however, students are strongly encouraged to take these subjects in order to understand the college of APS. Credits acquired through these courses will count towards "APS Major Education Subjects".

Subject Code	Subject Name (Subject Field)	Course Objectives & Overview	Registration Method
037113	Introduction to APS (APS Major Education subject)	<p>[Objective] Students learn the approaches and theoretical frameworks of each Area of Study to gain an understanding of what it will be like to pursue major studies in the Areas of Study.</p> <p>[Overview] In this subject, new students learn the information they need to study in the College of Asia Pacific Studies. Structured as a lecture series, faculty from the four Areas of Study take turns providing students with insight into three topics:</p> <p>What is a university and what should I do there? What kind of college is the College of Asia Pacific Studies, what can I study there, and what is 'Asia Pacific Studies'? What can I study and research in the four different areas? By taking this course, students will have an opportunity to think about what they want to study over the next four years and gain a clearer idea of their end goal.</p>	<p>Registered by the University (Cannot Drop)</p> <p>[Registration Period Set by APU] Japanese-basis students: Spring Semester (1st year)</p> <p>English-basis students: 1st semester</p>
037152	Introduction to Area Studies (APS Major Education subject)	<p>[Objective] Students learn the methods for studying the Asia Pacific region, the subject of research in APS.</p> <p>[Overview] In this subject, students will learn the fundamentals they need to understand the Asia Pacific region. The aim is to provide insights from multiple angles covering the characteristics and diversity of the Asia Pacific region. At the same time, students will tackle the question of 'What is area studies as it pertains to the Asia Pacific region?' and receive a general and comprehensive overview of the objectives in the field. By providing students with the basic knowledge they need to understand the Asia Pacific region, this subject serves as the first step to broader and deeper learning about the region.</p>	<p>Registered by the Student</p>

Number of Credits Earned from Distance Learning Courses

Number of Credits from "Distance Learning Courses" Included in Credits Counted Toward Graduation

A maximum of 60 credits earned from Distance Learning Courses may be counted toward graduation.

Under the Standards for the Establishment of Universities and APU's University Regulations, the maximum number of credits from Distance Learning Courses that can be counted towards graduation for undergraduate students is 60 credits. Please note that if a student earns more than 60 credits, the additional credits will not count toward the number of credits needed for graduation. In addition, please note that even if a student earns more than 60 credits for applicable courses, this will not be indicated under "Subjects Not Counted Towards Graduation" on the "Grade Report [Credit Completion]" page of Campusmate.

As such, students must check and manage the number of credits earned through Distance Learning courses themselves and make sure they do not exceed 60 credits.

Please check [this page](#) for the list of Distance Learning Courses and other information.

Requirement to Take the Benchmark Test for Required English Language Subjects

To evaluate the English learning level and progress, Japanese-basis students taking the required English language subjects in the Standard Track are required to undergo several Benchmark Tests at each registered level. The result of the Benchmark Test will make up a portion of student's grade evaluation for the individual level or course.

Benchmark Test

The Benchmark Test is a computer-based test of English language proficiency that is designed to show learner progress in the language over a period of time. It is an integrated-skills test, including Reading, Writing, Speaking, Listening. As well as giving detailed feedback to students on all of these language skills, the Benchmark Test provides students with a Global Scale of English (GSE) score.

Language Study Outside the Classroom

To further improve your language skills, APU offers a wide range of short-term programs during summer and winter holidays, as well as six-month and one-year overseas language training and study abroad programs. Students are also strongly encouraged to take the TOEFL ITP®, TOEIC® Listening and Reading Test and IELTS, which are conducted on campus, as an opportunity to objectively assess their English language skills. We look forward to your active participation and taking these tests!

Score Sheet

An "original score sheet (The score within the validated period.)" is a certificate or report from a testing organization which shows an evaluation of language ability. This must be printed by the testing organization itself. Also, please note that the exemption application will be invalid or will not be considered in the following cases.

- The application is incomplete or incorrect.
- Application documents are not submitted or do not arrive by the deadline.
- If the online submitted certificate, such as a qualification exam score sheet, is unclear, or if the original document cannot be submitted when requested by the office.
- The test score is not one of the specified qualifications for exemption.
- Score was not received while on "leave of absence" or during "period of exchange" (Only for exchange students or students on leave of absence)

Application Schedule

Details of the application schedule will be announced through Campus terminal.

Semester	Application Period	Interview Date	Announcement of the Result
Spring Semester	Around July	Late July – Early August	Grade Announcement Date
Fall Semester	Around January	Early February	Grade Announcement Date

Application Method

The application method will be announced through Campus Terminal. The screening will be judged comprehensively based on the application and the interview.

The score sheet (within the expiration/validated date) is required to apply. Please keep the original document at hand.

Score Sheet

"Score Sheet" is a certificate or report from a testing organization which clearly shows your pass/fail exam results.

Interview

If you are unable to attend the interview, your application will be considered invalid. Be sure to have your time available for the interview appointment.

Important Notes

In principle, students cannot cancel the application after taking the exemption test.

Also, please note that the exemption application will be invalid or will not be considered in the following cases.

- The application is incomplete or incorrect.
- Application documents are not submitted or do not arrive by the deadline.
- If the online submitted certificate, such as a qualification exam score sheet, is unclear, or if the original document cannot be submitted when requested by the office.
- The test score is not one of the specified qualifications for exemption.

[Only for students who are applying for exemption while they are studying abroad or are taking a leave of absence]

- The score was not attained during "study abroad" or while taking a "leave of absence"
- The student does not attend the interview on the specified day (regardless of the reason).

Language Class Attendance Rules

The following rules concerning class attendance will apply to all language education subjects (English, Japanese, AP languages).

In addition, each class may have special rules concerning attendance. Please be sure to confirm these in each course syllabus.

Attendance

Please attend all classes. If circumstances require your absence, you will still be required to attend at least 3/4 of the classes (including regular class days and final exam). If you do not attend this number of classes, you will automatically receive a failing (F) grade for the course.

Absence

If you are not present at the time class attendance is taken, you will not be counted present. However, absences may be excused in the following cases:

[Contraction of an infectious disease (as recognized by Japanese School Health Law)]

Students must apply to the APU Academic Office with the required documentation in order to have their absences from class excused for this reason.

[University-authorized leave of absence]

The relevant APU office (i.e. Academic Office, Student Office, Career Office) will send the documents directly to the class teacher. The student does not need to submit the documents to the teacher.

7-2. Seminar Subjects

APS offers 2nd Year Seminars, 3rd Year Seminars, and 4th Year Seminars as Major Seminar courses.

Under the 2023 Curriculum, 3rd and 4th year seminars are required, and students aim to write a graduation thesis as a culmination of their 4 years of study.

In 3rd and 4th year seminars, students study under the same faculty supervisor for 2 years from their 5th to 8th semester, based on the results of the application made in their 4th semester.

An overview of the system is shown below, but details of the seminar application method, application period, etc. will be updated soon.

17 2017 Curriculum

- Students who enrolled as new (1st year) students in AY 2017 or later.
- Students who enrolled as 2nd year transfer students in AY 2018 or later.
- Students who enrolled as 3rd year transfer students in AY 2019 or later.

2nd Year Seminars

APS offers "Introduction to Research Methods" and "Preliminary Seminar (Research Methods)" as 2nd year seminar subjects.

In "Introduction to Research Methods," together with studying research methods for the social sciences, students conduct basic surveys and analyses, write reports, and give presentations. "Preliminary Seminar (Research Methods)" further develops the skills students cultivated in "Introduction to Research Methods" for their particular fields of expertise and serves as the link between "Introduction to Research Methods" and the 3rd year seminars students will be taking.

This is why taking this subject during the 4th semester is preferred and why "Introduction to Research Methods" is desirable as a prerequisite. "Preliminary Seminar (Research Methods)" courses for each of the four Areas of Study have been established, with classes offered in Japanese during the Fall Semester and classes offered in English during the Spring Semester. Please check the syllabus for detailed information because the area of training emphasized differs depending on the Area of Study (e.g., focus on reading documents, focus on field work, focus on hands-on practice, etc.).

* Subject titles enclosed in parenthesis refer to subjects from the AY 2011 Curriculum.

3rd Year Seminars

Any students interested in advancing to graduate study or finding employment in Japan are strongly encouraged to register for a small-group 3rd year seminar.

Although the contents of each individual seminar vary greatly, the main aim of all 3rd year seminars is the same: deepen understanding of a specific field through case studies, journal articles and debate, and master the specialized knowledge and skills necessary for writing an undergraduate thesis.

【Grade Evaluation】

Major Seminar I/II: Regular grading (A+, A, B, C, or F)

APS "Major Seminar I & II"

The main aim of the APS Major Seminar is to deepen students' academic understanding of specific economic social issues, including the background and the structure of those issues, affecting the Asia Pacific region through research and discussion. Students also write academic reports on a chosen topic, which is essential training for further studies. The main fields are "Environment & Development," "Hospitality & Tourism," "International Relations & Peace Studies" and "Culture, Society & Media." During their studies, students will further develop the fundamental research methods they acquired during their first two years and deepen their knowledge through analyzing a range of information. Some students may also take part in surveys, interviews or fieldwork in Japan or overseas.

4th Year Seminars

4th year seminars form the culmination of students' four years of study at APU. This highly specialized subject allows students to select a topic of interest and conduct focused research over a one-year period.

Students take Research Seminar (2 credits) in the first half of their 4th year. Students who successfully pass this subject are then able to take Undergraduate Thesis (4 credits) the following semester. Only students who pass Research Seminar are able to register for Undergraduate Thesis.

[Grade Evaluation]

Research Seminar: Pass (P) / Fail (F)

Undergraduate Thesis: Regular grading (A+, A, B, C, or F)
