

Japanese Companies Market in Indonesia

- Japanese companies' business prospects are improved, and they eager to expand their business in the future.
- Majority of Japanese companies are shifting to Indonesian-centered management
- Number of job openings at Japanese firms: Approx. to 130% compared to 2022.

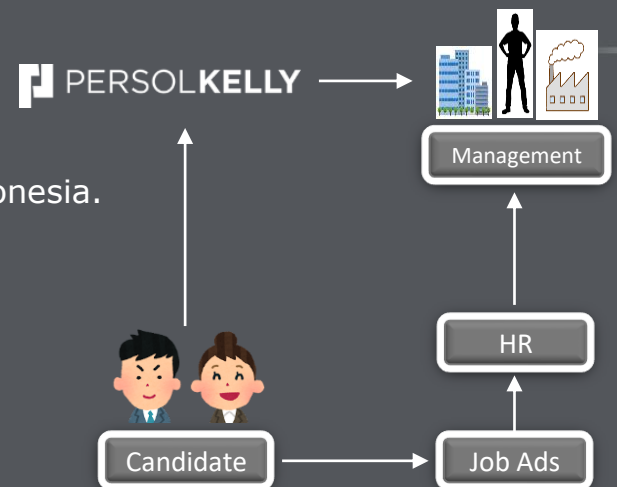

From the above situation,

- Eager to hire Indonesians who have opportunities to study and work in Japan.
- Depending on experience and skills, there are positions available for inexperienced candidates to be hired as executive candidates.

Benefits in PERSOL Indonesia

- We have connections with about 2,000 Japanese companies in Indonesia.
- We have a lot of private jobs that are not advertised in job ads!
- We have many openings for executive positions.
- Direct recommendation to the Executive level of the company (shorten the recruitment flow)
